

WILL YOU HELP THIS WINTER?

If you are not required on the farm this winter you should take other work.

Extra winter workers are needed for woods operations—logging and pulpwood and fuel cutting—hose, mortar mains, coal mines, meat packing and cold storage, grain handling, railway track maintenance, iron foundries and other high priority occupations, varying with the area.

Please offer your services to:

- The nearest Employment and Selective Service Office;
- The nearest Provincial Agricultural Representative; or
- Your Local Farm Production Committee.

A good response to this appeal is important to Canada's welfare—please act immediately.

Postponement of Military Training continues while in approved essential work off the farm.

CANADA'S SEVENTH VICTORY LOAN

On Monday next, October 23rd, thousands of salesmen all over the province will start a campaign in the interests of the 7th Victory Loan.

With Alberta's quota set at \$45,000,000, which is \$6,000,000 more than the objective set for the last loan, unit chairmen all over Alberta are agreed that unrelenting work over a period of three weeks will be required if the province is to attain its objective.

In this particular district, which has done exceedingly well in all previous loans, the objective is \$100,000,000.

To reach this figure, help and co-operation of everyone in the district will be required.

No one knows any better than sailors, soldiers, and airmen returning from service overseas of the value of first class equipment in the continuing fight against the Nazis and their Axis allies. This equipment is bought with the money subscribed by Canadians to the respective Victory Loans, and the forthcoming 7th Victory Loan will be no exception.

In this district, residents are invited to march with the parade with their fellow Albertans from the United States border in the south, to the Peace River country in the north, in the grand effort to reach Alberta's \$45,000,000 objective.

The slogan of the 7th Victory Loan is, "Invest in Victory," so let us show our friends to the north and south that when the final figures are counted on the last day of the campaign, an objective pennant will be flying from our highest building as daily proof that we did not fail when called upon to do our bit on the home front.

FIGHT ON, CANADA!

This war has called out the greatest expenditure of energy history has ever known. What will happen to all that energy after the war?

Will it stand in stagnant pools of unemployment? Will it be stored up in great pressure tanks of discontent that finally burst out in some sort of civil war? Or will it dribble out in thin trickles of competitive effort—every man for himself again and nobody united for the whole?

There is another use for energy. Everybody can pitch in behind a fighting purpose to wage peace, just as we pitched in unitedly to fight the war.

What, purpose? Everybody knows we can't build a new world on broken homes, broken hearts or broken trusts. Then what about a fight to build sound homes, a sound family in the nation and a sound family of nations?

War weddings have jumped our marriage rate to a new high. But there are also sections of the country where divorcees now exceed the marriages. If we can't live together in our own homes, what hope is there that we can live together with the other members of the family of nations?

At all may start with as trivial a matter as a family car. As we go to the fight to see who gets it after supper or put our heads together to see where it is really needed most?

The way we live at home is a testing ground for how we act in larger situations. There is a dispute down at the factory. Will the other fellows get away with it? Will we get ours? Or will we fight to see that all the men and all the country get what is most needed—just as the boys fought in their planes, or tanks or foxholes overseas?

In a still larger situation there may be disagreement between nations. Will we fight to see how much of each we can get out of the settlement or how much each can give to it? One is energy misused. The other, energy applied to build a decent nation.

All this, of course, is quite opposite to the things we used to do in peace. That is what makes it a fight. That is how we can carry on with a fighting purpose in peace long after the guns stop firing. That is how we can enlist the energies of our demobilized millions and rally our civilians too. Fight on, Canada!

The War Service Gratuity and Reestablishment Credit—OTHER ASSISTANCE AFTER DISCHARGE

The Canadian re-establishment program gives discharged members of the service assistance under a wide variety of measures during the period when they are deciding their future as civilians.

THE WAR SERVICE GRATUITY

This bonus law is the last session of Parliament, and provides, after discharge, gratuity payments to those honorably discharged, who enlisted for service under the War Service Act in the Canadian Forces, and who are entitled to receive it. It provides a basic gratuity of \$7.50 for each day of service in the Canadian Forces and \$15.00 for each day of service in the United Kingdom. A supplementary gratuity of seven days pay and allowances, with certain other allowances, is paid for each month of overseas service. Service in Greenland, Iceland, the Atlantic Islands and any other theatre in overseas service, or stationed outside the Canadian Forces, is also covered. Accrued gratuity outside the Canadian Forces, or stationed outside Canada or the United States, and Naval personnel in various ships of war are regarded as overseas service.

Monthly payments not exceeding monthly pay and allowances last received will start after January 1, 1945, unless the Act is proclaimed earlier.

RE-ESTABLISHMENT CREDIT

A re-establishment credit, equal to the basic gratuity shown above, and not including the supplementary one, is available in the 10 following discharge for constructive purposes as a part of a loan, bonus, interest or stock, or payment of premiums under Government life insurance. It can also be used for re-establishing or repairing a home, for working capital in the business, or for the purchase of a new home. The re-establishment credit is a loan, with interest, and is repaid by the Veterans' Land Act. Training, education and other similar Land Act grants cannot be paid if the re-establishment credit is used, unless an adjustment is made.

AT DISCHARGE

As discharge every man and woman is entitled to the re-establishment program, is given a free medical and dental examination, and may receive free treatment for any condition shown by the examination, in the following discharge. They are allowed to retain one uniform and certain other service clothing. All discharged after August 1, 1944, receive a uniform and certain other service clothing. All discharged after August 1, 1944, receive a discharge, a rehabilitation grant of 30 days pay and over a month's dependent's allowance. They also receive a railway warrant to their home or place of residence.

AFTER DISCHARGE

Service personnel entitled to discharge upon Employment and Selection Service, to many other men they will find Veterans' Welfare Officers and other specially trained men in many positions. They will find Veterans' Welfare Officers and other specially trained men in many positions. They will find Veterans' Welfare Officers and other specially trained men in many positions. They will find Veterans' Welfare Officers and other specially trained men in many positions.

VETERANS' WELFARE OFFICERS ARE STATIONED IN ALL CENTRES THROUGHOUT CANADA. THEY ADVISE AND ASSIST EX-SERVICE PERSONNEL, AND SHOULD BE CONSULTED ON ALL PROBLEMS.
